SmartClean™
Scraper Systems
by **Patz**

Our **SmartClean™** Scraper Systems have the **BRAWN** and the **BRAINS** you need! All of our **IntelliChain™**, **IntelliCable™**, and **IntelliShuttle™** Scraper Systems are engineered with high-quality, durable components for long service life and low maintenance. Each drive unit includes a Patz **SmartSense™** Control Panel, which provides the intelligence and the sensitivity to ensure your alleys are cleaned effectively and safely.

SmartSense™
Control Panel
MasterMind

The **SmartSense™** MasterMind Control Panel includes all of the features of the Expert Control Panel (info inside), PLUS:

- Patz innovative "Learning System."
- Adjustable speed control.
- Superior sensitivity - programmable BUMP feature.
- Faults and services are stored in memory to allow service technicians to pinpoint problems.

- **HARD PULL** one-button feature works great for freshly bedded alleys and times of heavy or excessive manure.
- **PARK** feature keeps scrapers out of way when needed (designate alternate scraper location other than HOME).
- **QUICK CLEAN** feature cleans alley in between scheduled cleanings.

UL/cUL certified!

SmartSense™ MasterMind Control Panel features an advanced "Learning System" that adjusts to weather, bedding, and manure changes!

Manure happens ... make the most of it with **Patz**!

IntelliChain™ Alley Scraper

Designed with your operation in mind!

- Features **SmartSense™** MasterMind Control Panel with easy-to-understand pictorial icons.
- Energy-efficient planetary gearbox driven by single ¾-hp motor!
- Narrow, space-saving drive unit design provides ultimate layout flexibility.
- Slider sleds available for layouts with alleys of unequal lengths up to 1,000 ft. (305 m) total circuit.
- On-floor or recessed chain installation available – easily installs in existing or new barns!
- Drive unit sensors keep track of scraper's position and direction.
- Low maintenance!

IntelliCable™ Alley Scraper

Keep your herd cleaner!

- Features **SmartSense™** MasterMind Control Panel with easy-to-understand pictorial icons.
- Energy-efficient drive system!
- Automatically clean on a precise schedule – even while you sleep!
- Drive unit design includes technology for precise scraper automation!
- Scrapers designed for easy removal.
- Easily installs in existing or new barns!
- Low maintenance!

IntelliShuttle™ Box Scraper

Handles your manure from alley to reception pit!

- Features **SmartSense™** Expert Control Panel with easy-to-understand pictorial icons (see details below).
- For slurry manure with chopped straw, sawdust, or sand-laden bedding.
- Drive unit design includes technology for precise scraper automation!
- Customized to fit your operation with up to 5 shuttle boxes per drive unit.

Expert
